## EXPERIENCE

### BrightChamps Tech Pvt. Ltd, Bangalore India

Software Developer - React Native | ReactJs | ElectronJs | NextJs

Jul 2022 — Jun 2024

- Coordinated end-to-end app development and deployment across four organizational verticals in an **Agile** environment, managing beta testing via TestFlight and Android internal testing.
- Executed seamless app releases and quick updates using Microsoft CodePush, reducing manual intervention by up to **20%** over time and enhancing user experience.
- Architected user responsive application following Atomic Design Principal leading to increase in **reusability** of components.
- Integrated deep links and deferred links to direct users to specific pages, enhancing customer re-engagement.
- Leveraged analytical APIs like Google Analytics, Segment, MoEngage, AppsFlyer, UXCam to analyze user behavior and boost engagement via push notifications.
- Integrated Sentry's native SDK and Firebase Crashlytics for automatic error reporting and performance issue identification, reducing crash rate by **98%**.
- Upgraded React Native codebase from version 0.65 to 0.70, addressing library deprecations.

Software Developer Intern - React Native

Jan 2022 — Jul 2022

- Revamped login frontend functionality using Redux as a centralized data source, including service calls, credential storage, routing, and token verification. Integrated Truecaller SDK for verification, reducing dependency on OTPs and **minimizing** operational costs up to **30%**.
- Collaborated with UX/UI designers to translate designs into responsive, pixel-perfect user interfaces, enhancing user experience and contributing to a **25%** increase in customer satisfaction scores.
- Implemented remote configuration to dynamically adjust app behavior and appearance without necessitating users to download updates. Managed version control and build maintenance using Git.

## EDUCATION

Master of Science, University of Sheffield, Advanced Computer Science

Sept 2024

Bachelor of Technology, VIT Bhopal University, Computer Science and Engineering, CGPA: 8.8/10

Jun 2018 — May 2022

Higher Secondary Education 12th, Pune Maharashtra, Science, Percentage: 76.46%

May 2016 — May 2018

Secondary Education 10th, Pune Maharashtra, Percentage: 84.40%

April 2015 — April 2016

## SKILLS

Languages : Java, JavaScript  
Framework / Libraries : ReactJs, React Native, NextJs, ElectronJs, Flutter  
Coursework : MySQL  
Soft-skills : Problem Solving, Leadership, Creativity, Time Management, Active Listener

## PROJECTS

MedHelp, Cross Platform Application

Oct 2020 — Feb 2021

- Tags** : Flutter, Google Map API, Firestore
- Role** : Design, Front-end work, Team lead
- Designed and developed an application capable of finding hospitals and resources in the nearby vicinity with the help of Google Maps API.
- Implemented a shareable card for sharing user info and medical history **faster and efficiently**

Exploratory Data Analysis, Web Application

Nov 2020 — Dec 2020

- Tags** : Python, Pandas, Matplotlib, Seaborn, Streamlit, Heroku
- Created a web application capable of performing exploratory data analysis on provided CSV format.
- Incorporated some visual methods that helps in summarizing the data and discovering patterns in it.
- Achieved to **save 40 %** of the time required for performing EDA, provided that the data has been through the initial cleaning process.

## ACHIEVEMENTS

- Attained position in top 15 percentile at **Data Science Bootcamp** conducted by Dphi a data science community.
- Qualified for the final round in **National Level Hackathon** Hackcovit 2020.
- Achieved 5th position in internal screening of **Smart India Hackathon** 2020.
